

Available Philippines Phone Marketing Lists with Frequently Asked Questions

Last updated April 16, 2019

1. What are the list prices?

We do not publish prices because each customer has different requirements based on the type of campaign(s) they conduct. We price our lists based on various factors such as quantity and number of demographic selections required to compile and extract the data required by each customer and their various campaigns. Therefore, each order requires us to consult one-on-one with each customer and provide a quote. The only lists we sell are presented in the table below. Lists are used primarily for Bulk SMS campaigns to the Philippines or manually dialed campaigns to the USA. To obtain a price quote, you must complete the [Bulk SMS application](#) on our website. Upon receipt of your list request, we'll contact you to schedule a time to discuss your requirements.

2. Is geo-location available for all phone lists?

Most (about 90%). We can GEO locate on most of the lists because over the last 12 months we have built a complete database end to end with street mailing addresses of each contact in about 90% of our lists. This means that we can extract most areas, but about 10% we cannot extract. At the same time, we can cross-verify by area code of landline numbers which is based on region.

3. For politicians or Philippines nationwide organizations, do you have a total count and is geo-location available all over the Philippines for all numbers or only a portion of the numbers?

There are more than 20,000,000 phone records in the database of which about 90% we can geo-locate for targeted campaigns.

4. Are the Gold Platinum Cards "credit" or "debit" cards?

Credit Cards

5. Are there duplicates in the various lists?

Yes, but we can separate out the duplicates - we won't send you duplicate names and numbers.

6. What is your most recent update on these lists?

The oldest update is about 4 months. Most lists are updated monthly.

7. Is the list "All Philippines Cardholders" a combo of credit/debit cards?

It's mostly Credit Cards. Debit Cards exist here but when it comes to Gold and Platinum it's 99% Credit Card based.

8. Globe Postpaid subscribers

Yes, we have the entire Globe Postpaid Network List

9. What is the definition of SME?

Small to Medium Enterprise

10. Define OFW list in the USA

This is a list of Filipino Immigrants to the USA that, via the latest Census (2010) have been determined to be in the top 2% of all Filipinos living in the USA. The list includes Name, Email, Phone, Address, Age. There are around 76,000+. The list includes the local USA number and is good for USA-targeted, manually dialed phone campaigns. Although the census was 2010, we have updated our data on a regular basis and believe this list is as accurate as the Philippines lists.
